REVIEW

K.G.F: Chapter 2 is one of the most anticipated movies of 2022. It's a sequel to **K.G.F: Chapter 1**, released in 2018. So, before proceeding to Chapter 2, it is strongly advised to watch Chapter 1 to clarify the storyline.

The plot of the film is based on a man named *Rocky* & his KGF kingdom. It depicts his emotional journey through life-circle, when he was determined to fulfill the promises he had made to his mother that whatever happens, he would cross every limit to attain her dreams to become rich. The strong and muscular storyline is the biggest strength of the plot & will engage the audience throughout the movie.

The audience can relate to the potential action sequences and VFX work that are very delightful & much needed for a commercial-based movie & it will work well for the action lovers. A number of 4 songs were established throughout the movie, and the lead female protagonist, *Reena's*, performance was up to the mark. All the minor characters are

equally good. The second half and climax scenes are shocking enough to take your breath away, specially that moment when *Adheera* says-“ The swing of a sword & the splash of blood in a battle is not a destroy but is progress.”

Hence, the problem with K.G.F.: Chapter 2 starts with the fact that *Rocky's* character does not move upward or forward. He tends to get greedier, darker, & all the more wicked for his mother's dream. I'll take a point from my given rating for this (I'll consider giving 9/10) & hope to see the development in the future. But despite this, it's a mind-blowing movie to watch & I can't wait for the next installment, which has already been announced. **(approx. words: 250-265)**
